rights restored. The matter was referred to the proper committee for investigation.  
A letter from Superintendent Babitt of the Department of Public Instruction was received calling attention to an enclosed letter from Miss Felker, principal of Kaahumanu school, who notified the authorities that the Japanese were using the school building for a meeting place.

## SUGGESTIONS ARE TO BE INVITED

Promotion Committee  
Wants the Public  
to Assist.

The members of the Promotion Committee are anxious to get into more intimate touch with the public of the Territory and will shortly issue a series of personal letters to various prominent people inviting suggestions, asking for criticism and generally trying to overcome the idea some seem to have, that the Promotion Committee is a close corporation and wants no outside help. This was talked over at the regular meeting of the committee yesterday, Chairman Willard Brown making the suggestion that the help will be invited. "It is hard for us to have new ideas to advance and discuss at each one of our meetings," he said, while it was further suggested that if the public generally was asked to take a deeper interest in the promotion work there would be a better realization of what the committee is doing and attempting.

Several matters of interest were discussed at yesterday's meeting, among the other matters of business done being the final acceptance of a Floral Parade poster design. The accepted design is that before described in the Advertiser with some minor alterations. The committee authorized the payment of \$50 to the artist, who is unknown to the members of the committee except by the adopted name of Kekeha. The matter of colors for the poster was taken up and the chairman and secretary authorized to discuss the matter with experts and to secure prices on the printing of the posters. The idea of the committee is to have the posters prepared and issued as soon as possible on the mainland.

One of World's Wonders.  
Secretary Wood exhibited a number of photographs taken recently of the Volcano, which he had secured to forward to Walter W. Burridge, the artist who painted the cyclorama views of the Volcano for the Mid-Winter exhibition held at San Francisco and exhibited later at the Chicago World's Fair. Mr. Burridge has received a commission to prepare another great canvas of Kiluea, which will be exhibited at the Seattle exposition with an exhibition of paintings of the greatest wonders of the world. In this way the Volcano will have added advertising among the Seattle fair visitors and the idea of a cyclorama of Kiluea will be carried out, as the suggestion was, but at private expense.

Los Angeles Representative Engaged.  
Secretary Wood was authorized to engage Mrs. Frances K. Hendler to act

(Continued on page 8.)

## WHEN THE FLEET COMES IN.

If you want to buy potatoes,  
Or a new and radiant tie,  
Take a warning ere your shopping you begin,  
For whate'er you wish to purchase,  
They will smile and then reply:  
"We will have it when the fleet comes in."

If you think to plan a dinner  
For a coterie of friends,  
And you hope with merry cheer  
their hearts to win,  
When you mail the invitations,  
Every one this answer sends:  
"Can't you make it when the fleet comes in?"

It is bad enough, in business  
Or in pleasure, with the men,  
But really is the limit and a sin  
When your best girl writes a letter  
With a most decided pen:  
"No more dates, because the fleet is coming in."

So I wish that bunch of warships  
Would appear at noon today—  
What they're doing now I do not care a pin,  
But they've got me very nervous,  
And most heartily I say:  
"I'll feel better when the fleet comes in."

JACK DENSHAM.

## MATSON LEASES LAND IN HILO

Secures Waterfront Property  
Valuable for Wharfage  
Purposes.

The Matson Navigation Company is planning for improvements in its wharfage facilities in Hilo. It has secured the lease of some land abutting on the Wailoa river near its mouth which will give it excellent lightering facilities and may, in the future, when the Hilo breakwater is built and dredging is done in the harbor, give it wharfage facilities.

The land secured is a tract with a frontage of about thirty-one or two feet on the river and extending back about 500 feet. It adjoins land leased to T. W. Rawlins. The tract is narrowest at the waterfront.

This land has been secured by two leases to Captain William Matson. One of these leases is from Samuel Manon, James Kuhoane Jr., Samuel K. Sylva and Samuel Kahano. The other lease is from Lucy Ohiaokalani Kahano. In each case the term of the lease is for ten years and the rental \$125 a year. These leases were filed for record with Registrar Merriam yesterday.

## CANDIDATES SWING AROUND THE ISLAND

The Republican candidate and other political orators are now out spreading the good seed among the out-of-town voters, having left yesterday morning on a swing around the island. The party, which numbered sixteen, have four automobiles for the trip, candidates Jim Quinn, E. Henriques and Norman Watkins having put their machines at the disposal of the committee and a fourth one being rented.

No report from the travelers has been received, but, if their plans are being carried out, a meeting was held yesterday at Kaneohe, in what is supposed to be Achi's stronghold, and another at Waikane, with other meetings along the road wherever an audience could be gathered. It is planned to work around Wailua today, hold a rally there this evening and move on into the Ewa district tomorrow, holding a meeting at Ewa Mill tomorrow night, while day meetings will be held at Pearl City and Waianae.

In the party are the three senatorial candidates, Henriques, Quinn and Hughes; John C. Lane, the mayoralty candidate; John Wise, for the shrievalty; D. Kalanokalani Jr., candidate for clerk; Harry von Holt, for the treasurer; Ahia, Aylett, Cox, Kane, Logan, J. C. Quinn and Watkins, for supervisors, and Rev. Stephen Desha and Bernard Kelekolio.

## ENGINEERS HOLD AN INTERESTING MEETING

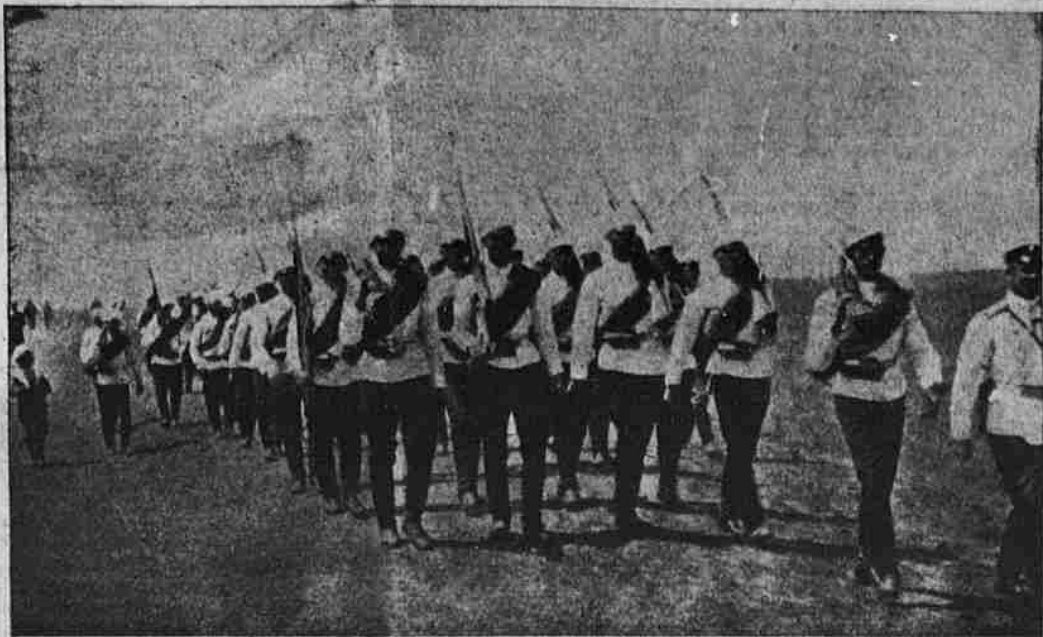

There was a large attendance of members at the meeting of the Hawaiian Engineering Association last night at their room in the Kapiolani building, at which E. T. Allen presented a paper on "Irrigation and World Development," this being read by the secretary. Following this paper, another one on "Bridges, Old and New," was read by Ed. Lord. A general discussion followed the reading of this paper, in which Professor Young, of the College of Hawaii, and C. H. Kluegel, of the Department of Public Works, led the discussion being spirited and of great interest.

## M'CANDLESS GOES TO THE SETTLEMENT

L. L. McCandless, who has been touring Hawaii, campaigning for the Delegation, went to Maui from Hilo on Monday and campaigned through Maui Monday, Tuesday and Wednesday. Yesterday morning at 2 o'clock he left Hilo for the Leper Settlement where he is to make speeches during the stay of the steamer in port, and will then go back to Maui and return to Honolulu Saturday morning, and take part in the Democratic rally at Ala Park on Saturday night.

The case of the Territory vs. G. A. Schaefer, to test the auto speed ordinance, was argued and submitted before the Supreme Court yesterday morning.

## TURKEY ACCEPTS THE SITUATION

SERBIAN TROOPS ON THE MARCH—THEY MAY SOON BE CALLED UPON TO FACE AUSTRIAN TROOPS IN THE FIELD.

## NO WORD OF FLEET ARRIVAL OR WHEREABOUTS RECEIVED

Up until midnight there had been no word received at either the naval wireless station or at the stronger station at Kahuku from the Pacific Fleet, although at both stations the operators keep up a ceaseless listening for a signal announcing the approach of the cruisers.

There is absolutely no information concerning the whereabouts or the movements of the cruisers of Admiral Swinhorne nor the destroyers in their wakes. Any reports so far given as to their probable date of arrival or information as to the cause of their delay are based on guesswork absolutely.

At the Naval Station, as elsewhere throughout the city, they are simply waiting for news of the fleet. It is possible that the cruisers will report their approach by wireless today, and it is possible that they will not, and that is the extent of the information concerning them that can be given with any degree of accuracy.

In the meanwhile, dinners, receptions, official parties and balls planned for the officers are indefinitely postponed until something definite can be learned.

## TRUCK AROUSES GREAT INTEREST

There was considerable interest taken in the newly arrived one ton autotruck round town yesterday, and whenever it stopped, a crowd collected and it was discussed learnedly and otherwise, principally otherwise.

This is the first truck of its kind to be used on the islands and, so far, it looks as though it would be a decided success. It was taken up to the Pali with a good load the day before yesterday and the low gear was not used once on the way.

The truck is manufactured in Pontiac, Mich., by a firm that makes nothing but trucks. The engine is two cylinder opposed of 30 horsepower. The transmission is planetary but the high gear is so low that the maximum speed is sixteen miles an hour, quite sufficient for a vehicle of this type.

There is a double chain drive with the differential between the chains instead of on the driving axle. Instead of the unwieldy hand lever for the clutch, a most unpleasant feature of many two cylinder machines, there is both a hand and foot clutch control so that driving is reduced to its very simplest form, with practically no changing of speed gears, as the high can be used nearly always, and foot controls of clutch, brake and throttle. The truck was purchased by a local bottling works and it is said that the service it gives is being closely watched by several other large firms in town who are figuring on getting the same kind of trucks if this one prove successful.

## AN ASSOCIATION OF LAHAINA TEACHERS

LAHAINA, October 7.—Eighteen teachers of the Lahaina district met at the Lahaina school on Saturday and organized an association. The officers are: R. Law, president; C. A. MacDonald, vice president, and D. Wilson, secretary. The association includes the teachers of Molokai and Lanai. The meeting will be held monthly. The November meeting will take place at Lahaina when Mrs. MacDonald, S. Mookini and Mrs. Searle will give papers on practical subjects.

Mrs. Thwing arrived at Lahaina Tuesday evening. He visited the Lahaina school on Wednesday morning and then proceeded to Wailuku. He will inspect all the Chinese missions of Maui after which he will go to Shanghai to remain for a few months.

Mr. and Mrs. Gibb and daughter of Olowalu left Tuesday evening for the Volcano where they will remain for a few days.

## HALEAKALA REST HOUSE IS READY

Good accommodations for tourists and others who scale the sides of Haleakala will be found at the summit after another week, the rest house in the lee of the summit crags being now ready, a water supply being assured through the building of a cement cistern and a fireplace with fuel being in place. Those who have clambered up to the brink of the House of the Sun and waited in the fresh air there for the sunrise will appreciate what the building of this house means.

W. O. Aiken, of Makawao, who is doing much to help the tourist trade on Maui, is responsible for this work. Concerning it he writes:

"I am pleased to report that the shelter on the summit of Haleakala is nearly completed, in fact could be used now if necessary. By the end of this month it will be entirely finished. This includes house, stable and cistern. It is my intention to put in the house an air-tight heating stove and do away with the fireplace entirely. It is never possible to get sufficient wood to keep the fireplace going, and it is possible to get enough wood to keep the stove going.

"The roof and other parts of the accessories to the house and stable are built entirely of iron, so I feel confident that it is going to be there to stay. I hope now to get around soon to the matter of advertising for tourists, for we will soon feel that we are in shape for them."

## SUDDEN DEATH OF JOE KAIA.

Joe Kaia, a blacksmith, who had been employed as a helper in the shop of John W. Macdonald for the past twenty years, died suddenly yesterday of heart failure, being found yesterday morning dead in his cottage in the rear of the Yashihira Hotel, Bereania avenue. An autopsy was held to determine the cause of death. The deceased was a very faithful workman, having during his whole lifetime practically with Mr. Macdonald lost not over ten days' time through unnecessary absence. He was between forty and forty-five years old.

## PASTOR CRANE RESIGNS.

Owing to the continued ill-health of Mrs. Crane, the Rev. David W. Crane has resigned the pastorate of the First Methodist church and, together with Mrs. Crane, will leave for the Coast on the Lusine, Saturday morning.

## Fears Protests Might Bring About More Trouble.

(Associated Press Cablegrams.)

CONSTANTINOPLE, Oct. 9.—A conference of the Powers regarding the new situation in the Balkans is now thought to be improbable. It is believed that the Porte will abandon its demand that a conference of the Powers signatory to the Berlin treaty be called, fearing that complications might result even less favorable to Turkey than the present situation.

It seems probable that Turkey will accept present conditions but will demand compensation from the Bulgarian government for the loss of the government railroad built through Rumelia, Bulgaria's southern province.

Turkey will also issue a protest against the Cretan junction with Greece.

CONSTANTINOPLE, October 9.—Turkish warships have been ordered to make a demonstration before the Grecian Island of Samos to enforce the expected protest on the part of Turkey to the annexation of Crete to Greece.

VIENNA, October 9.—It is learned here that Serbia is planning to carry on a guerrilla war against Austria as a protest against the annexation of the border province of Bosnia and Herzegovina to the Austrian Empire.

SAN FRANCISCO, October 8.—Detroit has won the championship pennant in the American League contest.

In the National League, New York today defeated Boston. The protested game between Chicago and New York has been declared a tie, and will be played off on October 8.

MANILA, October 8.—The damage resulting from the typhoon that swept the islands will reach hundreds of thousands of dollars.

The barracks at Port Stotsenberg have been destroyed. The schooners Soledad and Lucia have been wrecked and ten people drowned.

LE MANS, France, October 7.—In yesterday's flight, Wright made a record with one passenger of an hour and four minutes, thus fulfilling the contract by which he will sell his French patents to a syndicate for \$100,000. Fifty machines have been ordered.

SAN FRANCISCO, October 7.—J. F. Morgan and L. E. Pinkham of Honolulu were appointed on the committee on resolutions of the Transmississippi Congress. Mr. Morgan addressed the Congress yesterday.

SAN FRANCISCO, October 6.—The Transmississippi Congress opened here today. Messages endorsing the work and purposes of the Congress were received from President Roosevelt, William H. Taft, and William J. Bryan.

MANILA, October 7.—The fleet will leave here on December 1. Residents of this city are protesting over the decision not to have a public reception ashore.

TIRNOVA, October 7.—Prince signatory Powers to enforce the Treaty of Berlin in dealing with the Bulgarian revolt.

PARIS, October 7.—A harmonious Bulgarian conference is assured. Great Britain, France and Russia will take part.

VIENNA, October 7.—Today the Emperor Francis Joseph will proclaim the Austrian rights of succession as regards Bosnia and Herzegovina, and will grant them the constitution and representation.

SAN FRANCISCO, October 7.—The Hawaiian members of the Transmississippi Congress introduced a resolution today pledging the delegates to urge upon the United States Congress action that will insure the supremacy of American shipping in the Pacific. Mr. Morgan of Honolulu made a short speech, in which he thanked the Transmississippi Congress for the support it gave in the legislation for Pearl Harbor development.

MANILA, October 7.—The court martial held today heard the evidence of the case against Lieutenant Evans. The drift of events appeared favorable to Evans.

NEW YORK, October 7.—The National League baseball game here today resulted in a score of New York 7, Boston 2.

PARIS, October 8.—The situation in the Balkans is clearing, and it seems now that war is improbable, the international conference summoned being expected to bring about a peaceable settlement of the troubles in which Turkey, Bulgaria, Serbia, and Austria are involved.

LONDON, October 8.—Great Britain has asked the Austrian government to reconsider its intention to annex the Province of Bosnia and Herzegovina, the formal declaration of which move was issued yesterday at Vienna. Turkey, which exercises suzerain rights over the province, has already issued a protest against Austria's action.

CANEA, Crete, October 8.—The Island of Crete, until now a part of the Turkish Empire, has declared a union with Greece. Prince George of Greece has for some time been acting as Governor of Crete, appointed by the Powers under an agreement with Turkey.

TOKIO, October 8.—The Japanese Christians are rejoicing at the determination arrived at by those in charge of the preparations for the reception to be tendered the American Atlantic fleet to eliminate intoxicating liquors and the engagement of geisha girls from all official receptions.

WASHINGTON, October 8.—President Roosevelt is convinced that the political situation makes it unnecessary for him to go out on the stump personally in the interest of William H. Taft.

CHICAGO, October 8.—William H. Taft and William Jennings Bryan met here last night at a banquet, greeting each other cordially. The speeches at the function were nonpartisan.

NEW YORK, October 8.—Chicago won the pennant in the final game played today to determine the championship of the National league.

The Chicago team scored four runs in the third inning, made eight hits, and no errors.

The Giants scored one run in the first inning and one in the seventh. The game closed with New York's record two scores, five hits, and one error.

CHICAGO, October 9.—The championship series of games between the Chicago team, the winners of the National league championship, and the Detroit team, the American league victors, to determine the championship of the world, will be begun here tomorrow. A series of six games will be played.

LOUISVILLE, Kentucky, October 9.—Henry Watterson, a member of the Democratic National campaign committee, in a speech here last night assailed Roosevelt, stating that he had assumed powers as President that made him the virtual king of America.
